PROFESSIONAL SUMMARY:

I'm a passionate and results-driven Full-Stack Web Developer with **9+ years of experience**, skilled in both frontend and backend technologies. I specialize in turning complex ideas into efficient, user-friendly applications that deliver exceptional performance. Committed to continuous learning, I build innovative solutions that solve real-world problems and deliver measurable results. Driven by innovation and known for applying my #PPS framework—Precision, Purpose, and Scalable Vision—to create impactful, predictable, and profitable digital solutions, building future-ready systems for individuals, businesses, and brands.

AREAS OF EXPERTISE:

- ✓ Full-Stack Development
- ✓ Responsive UI/UX & Visual Design
- ✓ SEO-Driven CMS & Digital Campaigns
- ✓ API Development (REST & GraphQL)
- ✓ Cloud Deployment & DevOps Support
- ✓ Database Design & Management

PROFESSIONAL EXPERIENCE:

Viral-Max Media LTD

Front End Developer (Contract) | June 2022 — June 2025

- Designed and built responsive, high-performance front-end solutions at ViralMax Media, driving a 20%+ improvement in cross-platform user engagement.
- Integrated dynamic UI components with back-end systems, accelerating project delivery and enhancing overall development workflows.
- Optimized web applications for speed, accessibility, and scalability, ensuring alignment with client business goals and digital strategies.
- Collaborated closely with cross-functional teams to deliver tailored digital experiences, solidifying ViralMax Media's position as a leader in digital innovation.

POC Garnet

Full-Stack Developer (Freelance) | Oct. 2023 — March 2025

- Designed and implemented a secure, high-traffic lottery website for LSDPC's POC Garnet project, supporting property allocation for prized developments.
- Developed an engaging front-end interface and built robust back-end logic to manage lottery processes, participant data, and security protocols.
- Integrated scalable systems ensuring seamless user experience, real-time data handling, and reliable transaction flows across the platform.
- Collaborated with cross-sector stakeholders to deliver a digital solution aligning with the civic and architectural vision of the POC Garnet landmark initiative.

MyBuilder

Full-Stack Developer (Freelance) | January 2023 - January 2024

- Developed and deployed new features end-to-end, enhancing user experience for homeowners and tradesmen
- Built responsive, accessible frontend interfaces and integrated APIs to streamline workflows
- Refactored legacy code and addressed technical debt to optimize system performance and scalability.
- Designed and maintained automated tests, improving test coverage and ensuring platform stability

Guarded Courses

Full-Stack Developer (Contract) | Feb. 2023 — Jan. 2024

- Developed and launched Guarded Course's full-stack platform, delivering a seamless, intuitive user experience while integrating verified educational content from top-tier experts.
- Built and optimized front-end and back-end systems to ensure high performance, platform security, and scalable content management capabilities.
- Provided ongoing maintenance, updates, and technical support, ensuring continuous platform reliability, enhanced security, and a smooth learning experience for users.

TECHNICAL SKILLS

- **Frontend:** React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Sass
- **Backend:** Node.js, Express.js, PHP, Python
- **Databases:** MySQL, MongoDB, Firebase (Firestore / Realtime DB)
- **Cloud/DevOps:** AWS, Docker, GitHub, Netlify, Vercel
- **Design Tools:** Figma, Adobe XD, Illustrator
- **CMS Platforms:** WordPress, Shopify, Magento
- **APIs & AI Services:** REST, GraphQL, OpenAI, Google Cloud AI
